EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: paragraph [0009] has been amended to correct the typographical errors from 'die' and 'dies' to -dye- and -dyes-.

Please replace paragraph [0009] of the specification with the following amended paragraph:

[0009] According to the invention, it has been recognized that the problem occurring within the context of fluorescence microscopy is mainly attributable to the fading characteristic of the usable fluorescent ~~die~~ dye. According to the invention, there is a deviation from the marking method typically used in the biomedical field; specifically, the structures involved in the preparation are not marked with any kind of ~~dies~~ dyes, but with particles having a specific diameter and specific material characteristics. While the fluorescent ~~die~~ dye attachment depends on the fluorescence behavior of the fluorescent ~~dies~~ dyes assigned to the structures, the optical characteristics of the particles at some point play no role. What's more, this depends on the diameter and the material characteristics of the particles.

Allowable Subject Matter

2. Claims 32-35, 37-48, 54-58 are allowed.

Art Unit: 2877

3. The following is an examiner's statement of reasons for allowance:

As to **claim 32**, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for differentiated examination of various structures in a biological preparation using a microscope particular steps B and C, in combination with the rest of the limitations of **claims 32-35, 37-48, 54-58**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see Remarks, filed January 7, 2005, with respect to the rejection of the claims in the previous action under 35 U.S.C. 103(a) have been fully considered and are persuasive. Due the persuasiveness of the arguments and the amendment to the claims, the previous rejection has been withdrawn.

Fax/Telephone Numbers

If the applicant wishes to send a fax dealing with either a proposed amendment or a discussion with a phone interview, then the fax should:

1) Contain either a statement "DRAFT" or "PROPOSED AMENDMENT" on the fax cover sheet; and

2) Should be unsigned by the attorney or agent.

This will ensure that it will not be entered into the case and will be forwarded to the examiner as quickly as possible.
